

With \$5,000,000 on deposit in the banks of Santa Ana, surely we can afford to vote \$225,000 bonds for much needed schools.

REPUBLICANS TO MEET IN CHICAGO

G.O.P. National Convention to Open in Windy City on June 18, 1912.

HITCHCOCK RESIGNS TO BE SUCCEEDED BY NEW

Ohio Committeemen Insist on Presidential Primary Chosen Delegates.

WASHINGTON, Dec. 12.—By an overwhelming vote the National Republican Committee today defeated a resolution favoring the presidential preference primary, only seven members supporting Senator Borah who forced the issue.

WASHINGTON, Dec. 12.—The Republican national convention will be held in Chicago, opening June 18, next year.

The committee by a rising vote accepted the resignation of Postmaster General Frank Hitchcock as chairman of the convention arrangements committee, and elected former Governor Hill of Maine to fill the unexpired term, until Harry New of Indianapolis assumes charge. The following sub-committee on the call of the convention was named: Committee on Arrangements, William Ward of New York, Capers of South Carolina, Lowden of Illinois, Rosewater of Nebraska.

OHIO DELEGATION INSISTS ON PRESIDENTIAL PRIMARY
With every probability that its selection would be Chicago, the national Republican committee met here at noon today to choose the convention city. The date of the convention, it was believed, would probably be the third week in June, and that Harry New of Indianapolis was almost certain to be chosen chairman of the powerful committee on arrangements which names the temporary officers of the convention was plainly to be seen.

The most serious situation in the early stages of the committee meeting will be caused by the Ohio delegation insisting that the national convention be selected through a presidential preference primary instead of by the state convention. They declared that unless their demand is granted they will elect anti-Taft delegates at large. Ohio already has a law providing for the selection of 42 congressional district delegates at the Republican primary. Several Ohioans declare that President Taft cannot get a delegate north of Columbus in such primaries.

LILLIAN GRAHAM NEVROUS WRECK

Will Complete Testimony Today—Confessed to Suicide Letter; \$200 Paid For It

NEW YORK, Dec. 12.—District Attorney Buckner, who is conducting the prosecution in the trial of Miss Lillian Graham and Ethel Conrad for the shooting of Millionaire W. E. D. Stokes, announced at the opening of the trial today that he will complete the cross examination of Miss Graham during the day. Miss Conrad will then testify.

Missing Jury-man Believed To Be Suicide

KANSAS CITY, Dec. 12.—No trace has been discovered today of Harry Waldron, the juror in the trial of Dr. Bennett C. Hyde, alleged "germ poisoner," charged with the murder of Col. Thomas H. Swope, who escaped yesterday by climbing through a transom and sliding down a water spout at the hotel, where the jury was under guard.

Bulletins of News

Hot from the wire up to 3:30 p. m.

THE WEATHER

Fair tonight and Wednesday; light northeast wind.

San Bernardino's Big Building Record
SAN BERNARDINO, Dec. 12.—The building record in San Bernardino for the year 1911, up to date, totals \$366,055. Before the first of the year projected building will swell this sum to \$466,055.

Railroad Man Kills Self From Hopeless Love
SAN FRANCISCO, Dec. 12.—Declaring his act due to moral troubles, F. M. McKee, aged 35, traveling agent of the Spokane and Inland Empire railroad, is dead by his own hand here today. McKee was found in the hotel where he asphyxiated himself. In a letter McKee stated that he was hopelessly in love.

Aged Woman Was Living Torch in Fatal Flame
SAN FRANCISCO, Dec. 12.—A living torch, Mrs. Elizabeth McEachern, aged 80, too old to help herself, was fatally burned in her room at the Sierra hotel today. Her clothing caught fire from the cook stove.

Insurance Bill on Second Reading By Lords
LONDON, Dec. 12.—In the house of lords last evening Viscount Haldane moved the second reading of the insurance bill. He said that the testimony of employers was almost unanimous that the system benefited even themselves.

Revolution Rages in Northern Albania
LONDON, Dec. 12.—A revolution is raging today in Northern Albania, according to advices received here. Twelve hundred rebels are now under arms with the number increasing hourly. Several fierce battles have been fought during the past twenty-four hours.

Arizona On Qui Vive at First State Election—Democrats Lead Heavily

PHOENIX, Ariz., Dec. 12.—Tremendous interest is being taken by the voters of Arizona today which is electing its own governor and acquiring for the first time two Federal senators and one congressman. Meager reports were received here up to noon, indicating that ninety per cent of the registered vote will be cast, the largest vote in the history of Arizona.

That the election is going heavily Democratic is indicated by the exceptionally large number of straight votes being cast. Republicans are making an eleventh hour effort to hold the Mexican claiming that the issuance of a circular claiming that the Democrats, if successful, will enact an educational test for voters and thus practically disfranchise the Mexicans.

FIRE DESTROYS WEST FIFTH HOUSE

Flames Broke Out in North End of Place—Building and Contents Gone

NO ONE AT HOME WHEN IT OCCURRED

Place Belonged to Luther C. Wylie, Employed at Santa Ana Foundry

At noon today fire destroyed the house at 1121 West Fifth street, owned and occupied by Luther C. Wylie and his wife. The contents of the house were burned.

There was no one at home when the fire started. One of the neighbors who discovered it and first turned in the alarm stated that the flames were well spread over the north part of the house when he first observed the fire. Long before the firemen could arrive the entire house, about four rooms, was enveloped in flames, and nothing could be done to save anything. Wylie, who works at the Santa Ana foundry, had cooked his dinner, eaten it and had gone about two blocks on his way back to work when he heard cries of "Fire" and a boy called to him that his house was afire. Wylie rushed back. He knocked out a window hoping to reach a phonograph near it, but the instant the window broke flames burst forth in his face. He saved nothing. Mrs. Wylie went to Los Angeles this morning on a visit.

PASSED WITH EVERY VOTE

Public Utilities Bill Unanimous—Direct Legislation Bills Also Carried

SACRAMENTO, Dec. 12.—By a unanimous vote, 68 to 0, the assembly today passed the Sutherland-Eshelman public utilities commission bill introduced by Assemblyman Sutherland, providing for the enlargement of the powers of the railroad commission.

REDUCED ELECTION BOARD BILL PASSES ASSEMBLY
SACRAMENTO, Dec. 12.—Without a dissenting vote the Young measure decreasing the precinct election boards from eight to six, and providing that in precincts having less than 175 voters, the board of supervisors may appoint one judge, one inspector and two ballot clerks, were today passed in the assembly. Young has declared that this law will save the state at least \$100,000 in election expenses next year.

Senator Bills of Sacramento, today offered a joint resolution appealing to congress to pass the Simmons bill, which would establish a federal quarantine upon all imported fruit. He explains that this measure is necessary to protect the fruit of the country from the dreaded Mediterranean fly, which has appeared in Hawaii and Mexico.

RECALL APPLIES TO OFFICERS OF IRRIGATION DISTRICTS
By the provisions of the Griffin bill, passed in the assembly today, elective officers of irrigation districts are subject to recall.

Three bills introduced in the lower chamber by Assemblyman Held of Mendocino, relating to direct legislation, the referendum, and recall in cities and counties, were unanimously passed by the assembly today.

FREE TEXT BOOK FIGHT IS PUT OFF TILL TOMORROW
Owing to the absence of Senator Lewis, who is sick, the free text book fight in the senate was again put over today. The final vote may be secured tomorrow.

LIVING MEN MAY BE ENTOMBED IN MINE

Rappings From Far Interior of Cross Mountain Mine Heard Today

FOUR MEN HAVE ALREADY BEEN RESCUED ALIVE

Miners Claim Explosion Due to Insufficient Sprinkling System in Mine

BRICEVILLE, Tenn., Dec. 12.—Government rescuers today estimate that at least twenty-five or thirty-five of the miners entombed in the wrecked Cross Mountain mine are still alive. Rappings are heard from deep in the bowels of their prison. The four men already rescued alive were in the main part of the mine.

Miners here today declare that the disaster never would have occurred had the mine been equipped with an efficient sprinkling system, and they also say it was not properly inspected.

They charge that only a hand sprinkler was employed, and declare it an impossibility for one man in that capacity to make a daily inspection in all parts of the mine.

FOUR MEN FOUND ALIVE IN CROSS MOUNTAIN MINE
KNOXVILLE, Tenn., Dec. 12.—Four miners were found alive last night in the Cross Mountain mines at Briceville, according to a telephone message from T. I. Stephenson, president of the Knoxville Iron Company, who owns the mine.

Stephenson said the men were found in the main entry, and that the rescue men were exerting every effort to find more men alive. It is now believed more of the men entombed Saturday morning may be found alive.

REIGN OF TERROR GRIPS SPOKANE—CRIME RAMPANT

SPOKANE, Dec. 12.—A veritable reign of terror grips Spokane today, and there is much talk of the organization of a vigilance committee to run down the criminals who are perpetrating murders and robberies here. Last night two more murders and a dozen holdups and robberies were added to the police records and to balance it the police succeeded in rounding up a score of suspicious characters.

Those murdered by robbers were Chauncey Simmons, an accountant, who was shot down while running to aid his niece, whom a thief had attacked in her home.

Frank Ranquall, an Italian expressman, was shot and killed within one hundred feet of his home, where his wife and four children were sleeping.

PROGRESSIVES TO ANNOUNCE PARTY

Boston Will Be Birthplace of Republican Progressive Organization

BOSTON, Dec. 12.—The progressive Republican organization, whose birth was predicted some time ago, will make its formal bow next Saturday night at a meeting at which the Rev. Samuel McChord Crothers of Cambridge will preside and Gifford Pinchot and others will speak. Matthews Hale, a friend of Colonel Roosevelt, is one of the leaders. The finance committee of the new party already has raised \$80,000 and other pledges of money are being made daily.

—Carbide in 100 lb. cans. \$5.25. Henrickson's Fourth Street Garage, 405 East Fourth St. Phone Main 94.

CORONATION DURBAR OPENED IN BARBARIC MAGNIFICENCE

Points for Voters

The polls for the school bond election Thursday will be open at 8 o'clock a. m., and will close at sundown. The school district bonds have nothing to do with the polytechnic school. If you want the polytechnic vote for the HIGH SCHOOL DISTRICT BONDS. Vote for both propositions, thus:

\$25,000 School District Bonds.....	Yes	X
\$25,000 School District Bonds.....	No	
High School District Bonds.....	Yes	X
High School District Bonds.....	No	

Do not use anything but the rubber stamp provided in the booth to mark your ballot. If you mark it in any other way your vote will be lost.

Great things in the development of Santa Ana depend upon the success of this election. Don't falter now. Don't allow anything to interfere with your patriotic duty as a citizen.

VOTE FOR THE BONDS!

WHERE TO VOTE AND WHEN THE POLLS WILL BE OPEN

"That in said school election and High School election the polls must be open at 8 o'clock a. m. of the morning of the day of election, and be kept open until sundown of the day of election, when said polls shall be closed."

The above is from the "Notice of Election" prepared by City Attorney Heathman for the bonds election to be held on Thursday of this week. On Thursday, according to the almanac, the sun will set at 4:55 o'clock. That means that the polls will be open from 8 a. m. until 4:55 p. m., and those who wish to vote very early in the morning or late in the afternoon will be unable to do so. It is important that the time be kept in mind—8 a. m. to 4:55 p. m.

BERT FRANKLIN TO HIGHER COURT

Must Either Plead Guilty or Stand Trial in Superior Court—Cost McNamara

LOS ANGELES, Dec. 12.—Bert E. Franklin, late head of the McNamara defense secret service, whose trial was held yesterday before Justice Young on the charge of bribing jurors in the McNamara trial, was held to the superior court with bail fixed at \$10,000.

The principal witnesses for the state in the case were Geo. N. Lockwood and Mr. Robert F. Bain, the latter one of the first McNamara jurors to take the oath. Clarence Barrow's name was brought into the case by the witnesses but his connection was denied by Franklin. It is widely alleged that Franklin will plead guilty in the superior court, rather than stand trial.

COST TO COUNTY OF McNAMARA TRIAL

According to County Auditor Lewis the trial of the McNamara brothers cost \$142,679.75, estimated as follows:

Grand Jury.....	\$9,000.00
Reports before grand jury.....	5,335.34
Detectives.....	94,860.31
Trial jurors.....	5,831.31
Special officers.....	2,012.95
Experts.....	8,811.70
Extra help.....	2,937.00
Incidentals.....	3,769.94
Total.....	\$132,679.75
Expenses still unsettled.....	10,000.00
Grand total.....	\$142,679.75

SPECTACLE NOT EQUALED IN INDIA

Royal Pomp and Splendor Marked Strange Contrast to Plague and Famine.

150 NATIVE RULERS PAY HOMAGE TO ALIEN KING

English Majesties Dazzled Indian Subjects With Gorgeous Display

DELHI, India, Dec. 12.—King George was so pleased with the reception tendered him at Delhi that he announced today that the Indian capital will be removed to Delhi from Calcutta.

DURBAR BRILLIANT IN ROYAL GORGEOUSNESS

DELHI, India, Dec. 12.—India's vassalage to Great Britain was again formally proclaimed to the world today when, in the presence of 100,000 persons, representing 300,000,000 subjects, 150 native rulers knelt in homage to the head of the alien house of Hanover and Saxe-Coburg. Amid scenes of barbaric pomp and magnificence, unequalled in the history of India, in the great arena where Queen Victoria was proclaimed Empress by Viceroy Lord Lytton in 1877, and where King Edward was proclaimed by Viceroy Lord Curzon in 1903, King George the Fifth—the first reigning English sovereign to visit the Far East—announced his own succession to the imperial throne.

The fact that every week more than 6000 natives are dying from plague, that hundreds of thousands are on the verge of starvation, and that the spirit of sedition abroad in the land is repressed only by England's strong display of force, was apparently forgotten for the moment.

The Oriental setting, the glitter of the royal crowns, the gorgeous robes and jewels of the Indian princes, the thousands of brilliantly uniformed and superbly disciplined troops, and the vari-clad host of people of hundreds of races and creeds, combined to make a series of tableaux of surpassing splendor.

In order that the momentous ceremony—known as the Durbar—might be conducted with safety, Delhi was turned into an armed camp, and from early morning the streets of the ancient capital of the Mogul emperors resounded with the tramp of soldiers marching to take up their positions along the procession route from the royal encampment. Fifty thousand British and native troops, under the personal direction of General Sir O'Moore Creagh, commander-in-chief in India, effectively prevented any possible protest against the ceremony or British rule generally.

The Durbar arena, situated about three miles from the royal camp, consists of two semi-circular amphitheatres, an inner one, seating about 5000, reserved for the king and native princes and British officials, and the outer one built on the high ground between the fort (the former Mogul stronghold and the Ridge, scene of the desperate fighting which finally assured the British conquest of India, in 1857).

In the center of the inner amphitheater stood the royal pavilion with two thrones, and ranged round were the pavilions for the British governors and high officials, and the native rulers. The Eastern potentates started from their different camps early and arrived in full state with bodyguards, viziers, and court officials. The troops and attendants took up the positions allotted to them and each chief seated himself in his gilt chair, over which floated his own banner, banners that had been seen on eastern battlefields hundreds of years before the British royal standard was thought of. The canopies of blue and white satin embroidered with the gold

GETTING SEED FOR NEW CROP

Growers for Anaheim Sugar
Factory Securing Supply
for Planting

ANAHEIM, Dec. 12.—Sugar beet seed is being shipped from the warehouse of the Anaheim Sugar Company to growers who have signed contracts for the ensuing year. Good results were obtained from similar grade of seed last year. Most of the factories will run close on seed for the season, the shortage with some being acute and the available supply limited.

The various packing-houses of Anaheim are busy sending out their first oranges, as the holiday trade for the distinguished Southern California Valencia is great. Anaheim Valencias have made more than good in the eastern markets, and the cry is for more. Price outlook is considered very good by orange men in local territory the total sum realized from the new season is expected to be

much larger than that of the 1910-1911 season.

MONEY BACK DANDRUFF CURE

"PARISIAN SAGE as a hair grower and scalp cleaner is all right."—Mrs. Dora M. Daniels, Williamson, W. Va.

"PARISIAN SAGE cured me of terrible itching of the scalp."—Mrs. C. P. Pope, Oxford, Ala.

CHINA APPEARS READY TO YIELD

Peace Conference to Be Held at Hankow—Demands of Rebels to Be Granted

SHANGHAI, Dec. 12.—The Chinese government may make complete surrender to the rebels in a conference to be held at Hankow, at which peace terms will be fixed.

This became known yesterday when Gen. Li Huen Hang, the revolutionary commander, wired from Wuchang to representatives of the imperial party that Hankow had been decided on for the peace conference.

At the same time it was announced that Tang Shao Yi had left Peking to represent Premier Yuan Shih Kai at the conference, with instructions to grant virtually every demand made by the rebels if they renewed the offer to establish a limited monarchy.

Miss Edith Mote

If "Doc" Roberts enjoys the opportunity of giving his patrons real good, wholesome entertainment as much as the large audience appreciated his show last night, then his cup of contentment is full to overflowing. Never before, in the line of regular price amusement in Santa Ana, has there ever appeared such a well balanced program with every number a feature, as the show that is at the Bell for tonight and Wednesday night.

The Edith Mote Co. is simply marvelous; twenty minutes of the most refined entertainment ever presented. This company carries almost a ton of stage dressings and electrical effects. Five electricians are required to handle all of the wonderful effects. "Billy" Titchett has the best way of singing illustrated songs. He is a big hit; and the pictures could not be better. The Bell has a big show and you should not miss it. Two nights only, Tuesday and Wednesday.

GIBBON POINTS OUT BAD ECONOMIC CONDITIONS

Declares It Is Wonder Men and Women of Present Time Endure The Galling Situation

Los Angeles Tribune: "Every man and woman is affected and should be concerned with the present social economic conditions," declared T. E. Gibbon, harbor commissioner of Los Angeles, and one of the most advanced in thought men of the city, in a recent talk to the members of the Cosmos Club. "The most important issue of the day is the just division of the necessities and comforts of life and it is strange that intelligent men cannot read the history of the past and see that conditions that brought about the French revolution are being duplicated today in our own country."

"A perusal of the life of Charles II would make one boil with indignation at the bold robberies he committed on the public exchequer, but more of the people's money is paid to the steel trust than Charles ever diverted to his own uses from Great Britain."

"The cost of production of a ton of steel is about \$16; the selling price \$24. This enormous profit to the producer is supposed to benefit the workmen in the steel mills, but it really does not, for investigation by a government official has brought out the fact that in 446 steel works in the United States one man in every three works twelve hours a day, seven days a week, for less than \$1.80 a day. When children come into the family they are often sent to relatives in Europe because living is cheaper there, thus depriving the parent of the child's society, and the child of its proper right. These are the children that are supposed to benefit by the high price charged for steel."

"We have not these labor conditions in our city at present, but when the Panama canal opens, bringing its influx of foreign population, we must be prepared for it."

You cannot be properly nourished and neglect the cereal part of your food. Not the predigested breakfast fads, but good, wholesome mush that comes warm and savory from the stove.

Feed and Fecundity
Dr. Reed Hunt of Washington seems to have discovered that the fecundity of females depends upon the food eaten and its effects upon the thyroid gland. In experimenting with mice he fed one group on oatmeal and liver, and they produced no young. Another group was fed on crackers, milk and eggs, and they produced 101 young in the same time in which a third group, fed on corn meal and milk, had produced sixty nine young. Application of these facts

is made in showing that sows which are fed on corn alone or even corn with milk will produce smaller litters than do those which have a ration of alfalfa and corn.

Pure Bred and Scrub
There is little apparent difference while young between the scrub and the pure bred animal if being reared under like favorable conditions. As maturity approaches the difference becomes more marked. Herein lies a good reason why in buying breeding animals those of mature age should be

sought. This is especially true if the purchaser is a novice at judging and is compelled to depend upon his own resources.—Kansas Farmer.

There is no objection to feeding acorns to brood sows, says the Kansas Farmer. They contain about two per cent of digestible protein, thirty-four per cent of digestible carbohydrates and 1.07 per cent of digestible fat. Feeding excessive quantities of acorns is not desirable as a finishing ration, because of the tendency to make soft fat.

BIGLAR GOT \$11 AND RING

at 119 Lacy Street
Entered Last Evening
About 7 O'Clock

About 7 o'clock last night a burglar slipped into a room at 119 street and stole \$11 and a ring belonging to Arthur Amstutz, a Electric conductor who lives at Amstutz was in another part house at the time.

The burglar went into a room where the one in which he found the ring he would have money that belonged to the Electric, it being in the possession of the conductor.

At 7:15 o'clock, Officers Heard, and Gilbert searched the neighborhood, and arrested eight hoodlums in the vicinity of the depot got no trace of the thief or property.

Each German conversationally, no study. Expert tutoring young people. Siegel, 816 North street.

ECZEMA Quickly Cured With "ZEMO"

A TRIAL TREATMENT FOR 25c
The makers of ZEMO—the celebrated eczema and skin cure—have placed on the market a trial treatment package consisting of a generous bottle of ZEMO, a trial cake of ZEMO SOAP and a 32 page booklet "How to Preserve the Skin." This entire package to be sold at 25c, so that everybody can test the true healing and cleansing properties of ZEMO. We have received a good supply of these trial-treatment packages and urge all those troubled with Eczema, Pimples, Itching Skin, or any other skin or scalp disease, to come here and get the ZEMO trial-treatment. We heartily endorse and recommend ZEMO and ZEMO SOAP to all persons suffering from any form of skin or scalp trouble. It is a clean, soothing, healing wash and a sweet antiseptic soap that does not glaze over the trouble like salves, powders and greasy lotions, but penetrates to the very root of this trouble. ZEMO stops the itching at once and opens the pores and draws out the poisonous accumulations to the surface of the skin leaving it clean and healthy. Get a trial-treatment of ZEMO today—you'll find it the best 25c investment you ever made. Dean's Drug Store.

AN OKLAHOMA SHERIFF HERE

Pawnee Officer Arrives to Take John Manning Back to Face Trial

Sheriff Marshall of Pawnee, Okla., arrived here yesterday evening and will return with John Manning, arrested for him by Deputy Sheriff Jernigan and Constable Squires.

The Oklahoma sheriff is today the guest of Sheriff Raddock of this county on a trip to Long Beach. Manning was working as a telephone lineman at Fullerton when he was located and arrested on information that he is wanted in Pawnee, Okla., on a charge of felony, brought against him by a 17-year-old girl. Sheriff Marshall says that Manning's family is prominent and well-to-do. He thinks that there is a strong case against young Manning.

NOTICE TO HUNTERS
—McFadden's pasture is closed to hunters. Any person caught hunting in either pasture will be prosecuted. This means YOU.

FOR THE STOMACH Here's an Offer You Should not Overlook

Rehall Dyspepsia Tablets remedy stomach troubles by aiding nature to supply the elements the absence of which in the gastric juices causes indigestion and dyspepsia. They aid the stomach to digest food and to quickly convert it into rich red blood and material necessary for overcoming natural body waste.

Carry a package of Rehall Dyspepsia Tablets in your vest pocket, or keep them in your room. Take one after each heavy meal and prove our assertion that indigestion will not bother you.

We know what Rehall Dyspepsia Tablets are and what they will do. We guarantee them to relieve indigestion and dyspepsia. If they fail we will refund your money. Three sizes: 25 cents, 50 cents, and \$1.00. Remember, you can obtain Rehall Remedies only at our store—The Rexall Store. Dean's Drug Store, 194 West Fourth street.

PUBLICITY IS CURE FOR RAILWAY EVILS

R. R. Securities Com. Report Endorsed By Taft Declares For Federal Power

WASHINGTON, Dec. 11.—Publicity regarding railroad stock and bond issues, enforced by stringent provisions, is the most salutary and effective present remedy for wrongs which exist in railroad financing. This is the recommendation of the railroad securities commission, which today submitted its report to congress, accompanied by a letter from President Taft endorsing all its recommendations.

The commission was formed to consider the advisability of government control of railroad security issues. Arthur T. Hadley, president of Yale University, is chairman of the commission, and the other members are Walter L. Fisher, Frederick N. Judson, Frederick Strauss and Balhasar H. Meyer.

Unless the constitutional power of congress is established to regulate railroad securities, exclusive of state control, says the board, one of two things must happen. Either the federal government and the states will come to a common understanding on the principles to be adopted, or the railroads will be given opportunity to exchange their state charters for federal ones.

DYNAMITING QUIZ WAS HALTED TODAY

LOS ANGELES, Dec. 12.—The federal grand jury which is probing the dynamite outrages went into session at 10:30 this morning, but before delving into the dynamiting cases took up a few Indian matters relating to illegal liquor selling at the Indian reservations.

Detective McLaren and Deputy District Attorney Veitch arrived at the federal building with a mass of evidence which was to have been used in the McNamara case. This was turned over to Government Prosecutor Oscar Lawler, to be used in connection with the dynamite probe.

ALL STOMACH MISERY ENDED

No Indigestion, Gas, Heartburn or Dyspepsia Five Minutes Later

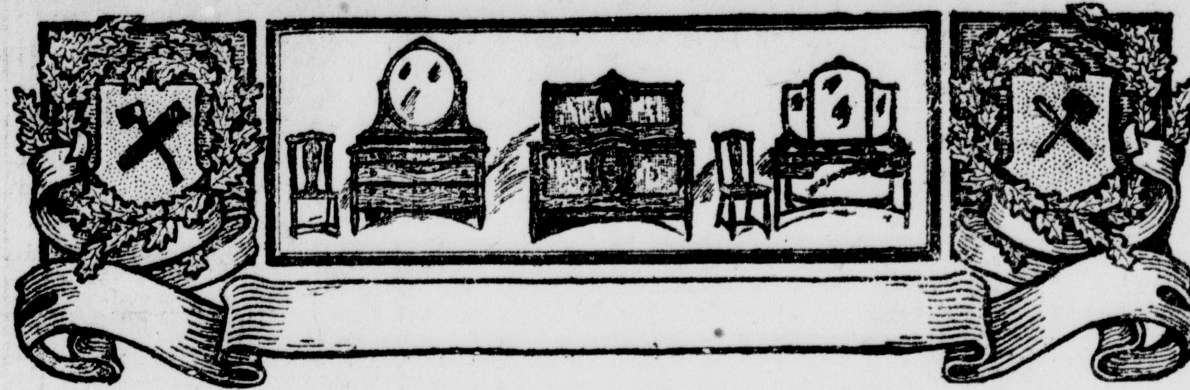

The question as to how long you are going to continue to suffer from Indigestion, Dyspepsia or out-of-order Stomach is merely a matter of how soon you begin taking some Diapepsin.

If your stomach is lacking in digestive power, why not help the stomach to do its work, not with drastic drugs, but a reinforcement of digestive agents, such as are naturally at work in the stomach.

People with weak Stomachs should take a little of Diapepsin occasionally, and there will be no more Indigestion, no feeling like a lump of lead in the stomach, no heartburn, Sour risings, Gas on Stomach or Belching of undigested food, Headaches, Dizziness or Sick Stomach, and, besides, what you eat will not ferment and poison your breath with nauseous odors. All these symptoms resulting from a sour, out-of-order stomach and dyspepsia are generally relieved in five minutes after taking a little Diapepsin.

Go to your druggist and get a 50-cent case of Pape's Diapepsin now, and you will always go to the table with a hearty appetite, and what you eat will taste good, because your stomach and intestines will be clean and fresh, and you will know there are not going to be any more bad nights and miserable days for you. They freshen you and make you feel like life is worth living.

Ducks Best in Winter
The duck generally lays at night. It thrives best on soft, succulent food. Strong, vigorous birds can be successfully bred at four years of age. Properly fed, at eight weeks of age, green

Christmas Gifts that will Please Most Useful Furniture

pair. At ten weeks they should weigh ten to eleven pounds to the pair. The best prices for green ducks are given about May 1. Then the price gradually declines, until the month of July. Roasting ducks sell best in winter.

Three-Fourths Are Women
—Careful observers among the medical profession estimate that of those who seek the services of a physician three-fourths are women.

Many of these women are without question in need of surgical treatment, but perhaps the majority of them will be greatly benefited by medical treatment only.

In the course of treating such ailments, physicians have demonstrated beyond question the value of certain drugs in their treatment and, following the formula used by a physician especially successful in such cases, Rexall Vegetable Compound has been placed upon the market.

Many women have learned by experience that their ailments were of such a nature that they themselves might administer satisfactory treatment. While we do not recommend such a procedure, but strongly advise that you consult with your physician, we cannot speak too highly of the value of Rexall Compound for use in such cases.

Please remember that Rexall Vegetable Compound can be obtained only at our store—The Rexall Drug Store. Large bottles \$1.00. Dean's Drug Store.

Lightning Seemingly at Play
That the gambols of electricity are most fearful and wonderful was illustrated in the month of June, 1873, when, according to Flammarion, the electric current entered a butcher's

shop and followed the iron bars from which the quarters of meat were hung until it reached a hook on which the skinned carcass of a whole ox was suspended. This was galvanized, and for several seconds it was frightfully contorted as if in convulsions.

FREE CANAL WOULD BE WORLDS HIGHWAY

Nations Would Strive to Keep It Open, Says Experienced English Shipper

"Make the Panama Canal a free passage for all nations and you will secure protection without the necessity of fortification, for the reason that all nations will have so great an interest in it that it will become neutral territory and each nation will strive to keep it open," declared Clifford Edgar, president of the Niger Shipping Co., Ltd., of Richmond, Eng., in an interview with the Times.

"This statement is entirely from a disinterested standpoint," said Edgar. "I am taking the stand that if it is open to all nations without cost to them their ships will be forced to use it to meet competition which will grow fast with such an inducement. It will increase the shipping to this country by increasing greatly the number of vessels which will use the canal."

If You Are a Trifle Sensitive

About the size of your shoes, it's some satisfaction to know that many people can wear shoes a size smaller by shaking Allen's Foot-Ease, the antiseptic powder, into them. Just the thing for Dancing Parties, Patent Leather Shoes, and for Breaking in New Shoes. When rubbers or overshoes become necessary and your shoes pinch, Allen's Foot-Ease gives instant relief. Sold Everywhere, 25c. Sample FREE. Address, Allen S. Olmsted, Le Roy, N. Y. Don't accept any substitute.

FARMERS CO-OPERATION

Agricultural Co-operation in Finland, although it was initiated but a few years ago, has now reached a high degree of development. This result is largely due to the work of propaganda and organization carried out by the "Pellervo" Society, which was founded in 1899 for this purpose. Thus the contrary has taken place in Finland to what usually occurs in other countries; that is, there has been a central organization before the single co-operative societies have been founded. It must also be pointed out that the "Pellervo" was founded by the intellectual members of the towns rather than by the farmers, because they realized that a prudent and well-organized agricultural co-operation was one of the principal sources of well-being for the country.

Nor were they mistaken; this is shown by the data contained in an article on agricultural co-operation in Finland in the September number of the Bulletin of Economic and Social Intelligence, (International Institute of Agriculture, Rome), from which the information in this article is summarized.

After the foundation of the "Pellervo" Society, and in consequence of the law of 1901 on co-operative societies, the development of the latter was very rapid. In fact, after the "Pellervo," 49 agricultural societies were founded in 1901, 89 in 1904 and 1122 in 1909.

In Finland the co-operative society extends its operations to the most varied branches of the agricultural industry. Some of the more important societies are those for dairy products. In 1908 there were 340 of these societies, with more than 33,000 members, who supplied the societies with 2,653,940 hectolitres of milk, taken from 238,000 cows. There were 10,912,000 kg. of butter sold, being 88.5 per cent of the total exportation of butter from Finland.

The co-operative credit societies are of equal importance. They are carried on, on general lines, in accordance with the principles of the Raiffeisen Banks, and their business is almost exclusively the supply of small sums to small farmers. In 1909 there were 384 of these funds, with 15,000 members, to whom loans were granted for a sum total of 4,025,000 francs (an average of about 256 frs. per member).

The local co-operative credit societies are all affiliated to a Central Bank, which was founded in 1902 and carries on its operations by means of a loan of 4,000,000 frs. granted to it by the State and an additional annual subsidy of 20,000 frs. It acts as a kind of heart in the organism of the Finland co-operative credit societies, supplying capital to the small local societies, which have to submit to its control. In 1909, 340 co-operative societies out of 348 joined the Central Institute, receiving 4,000,650 frs. in loans.

This centralization has been brought about not only in connection with the co-operative credit societies, but also with the others. Thus, in addition to the Central Bank of which we have spoken, there is the important organization, the "Hankkija," founded in 1905, the object of which is the purchase and sale of agricultural requirements; the "Labor," constituted for the same purpose, the "Valio," which is a central organ for the sale of butter produced by the local co-operative societies, and finally the co-operative distributive central. In 1909 the four central societies (excluding the "Labor"), comprised 550 co-operative societies, possessing a capital of 898,000 frs., their business for the year being 32,109,000 frs.

The co-operative societies in 1908 had a total membership of 181,500; of this number, 33,000 belonged to co-operative dairies, 13,500 to co-operative credit societies, 100,000 to co-operative distributive societies and 35,000 to the others. The total business done was 97,000,000 frs., of which 27,000,000 represented the sales of the co-operative dairies, 3,168,000 frs. the loans of the co-operative credit societies, 52,000,000 frs. the sales of the co-operative distributive societies, and 8,000,000 frs. the business of the other co-operative societies. The amount of the purchases in common was 7,000,000 frs.

These figures are sufficient to demonstrate the development of agricultural co-operation in Finland, which really appears marvelous, when the geographical position, the distribution of the population and the climate of the country are taken into consideration.

Strong Endorsement of
The Register's Position
On Fake Stock Selling

Editor Register:—In a recent issue of your paper you say you are "heartily tired of the stock jobbing peddlers that are selling stocks all over the county, not one in a hundred of which has any value." I am glad to see you take this stand, and I will go you one better, and say that not one of the schemes in a thousand that are put up to the public has any real merit.

Our people here in Santa Ana have lost over a half million dollars in the last few years in stock jobbing schemes of one kind or another. Nearly all of them are utterly worthless, yet men of prominence, and occasionally bankers, will let these stock jobbing vultures have the use of their names, receiving therefor a bunch of stock free, or a commission on all stock sold. A slick-tongued agent, thus armed, goes to the unsuspecting clerk, rancher, laborer, merchant, and oftentimes a poor widow who has laid up a little surplus money and pours out his fairy tales of the dividends that will soon come rolling in, saying: "You know Mr. So-and-So would not go in to anything without investigating it, and you know he is a good, conservative man."

Shame on the man or banker that will thus loan his name to fleece his neighbors, and oftentimes his friends! If any sane man or woman would only stop and think he or she ought

to know that no legitimate enterprise can afford to pay these stock peddlers from 25 to 50 per cent of the price stock is sold for and live, yet this is what they get. Time and again I have been called a knocker by some would-be prominent men when stock in which I had no confidence was the talk of the town, because I advised our stockholders and friends to let it alone. Santa Ana people must have lost a hundred thousand dollars on one such scheme alone, and many times have I been thanked for keeping some of them out of it.

I cannot recall a single instance where these stock jobbing schemes have proved to be a profitable investment. A favorite scheme now for stock-selling is to sell the stock and take notes for it. Oftentimes the peddlers of the stock will tell their prospective victim, if you are not satisfied you can surrender the stock and get your note back, but when the note is called for it has been sold, perhaps at a discount of ten to fifteen per cent, and must be paid when due, for pay day is like death, sure to come.

If all the papers would take the stand the Register has in this matter it would save our people untold thousands every year. To one and all I want to say, let all these stock jobbing schemes alone.

Cashier Farmers & Merchants' National Bank.

DIED TO DEATH
FROM BIG 19-STORY
MASONIC TEMPLE

CHICAGO, Dec. 12.—Before a score of people, J. F. Greek, manager of the International Association of Machinists, of Shawnee, Okla., died to his death nineteen stories below from the rotunda of the Masonic Temple today. His body struck a show case, which was hurled from its fastenings and hit Harry Evans, probably fatally injuring him.

Greek rode to the nineteenth story, which is the topmost floor of the building, in an elevator. He then walked to one of the two iron girders spanning the rotunda. He there stripped himself of every particle of clothing, folded them, and laid them on a girder as he made ready for the dive, but changed his mind, unfolded his clothing, took out a cigarette, lighted it and inhaled it with apparent enjoyment, then threw the stump aside and raised his arms above his head in a diving pose. His body poised for a moment, then swayed slightly forward, and as Greek lost his balance he gave a slight upward and outward spring head-foremost into the air.

NO RACE SUICIDE IN
SPAIN'S ROYAL FAMILY

MADRID, Dec. 12.—A daughter was born early today to Queen Ena of Spain.

The latest arrival in the royal family of Spain is the fifth child born to the Queen, the fourth dying at birth. King Alfonso and Princess Ena of Battenberg were married May 31, 1906. Their first child was born May 10, 1907, and was christened Prince Alfonso. The other children are Prince James and the Princess Beatrice.

SPEED MACHINES
OF EARTH AND AIR
CRASH IN FRISCO

SAN FRANCISCO, Dec. 11.—The first recorded collision between a machine of the air and a machine of the land occurred at the Oakland motor-drome yesterday, when Didier Masson, flying in a Curtiss biplane, crashed into a motorcycle being driven seventy miles an hour by Joe Wolters, the "speed demon."

Held tremulous in tension by the clashing of the two rapidly moving racing machines, the big crowd watching the aviation and motorcycling meet awaited with expectancy to see the outcome of the collision.

Wolters and Masson were severely bruised.

have the right to kill at least one man and one woman every year in order to make medicine out of their bodies.

An accidental movement of the apothecary at Pollau, Herr Kobermauser, when giving medicine to a boy named Putz led the latter to believe he was going to be killed. He ran away, but got such a fright that he fell ill. The inhabitants believed his story and boycotted the apothecary, who was at length compelled to prosecute. Putz was sentenced to fourteen days' imprisonment, but his parents, who had spread the story, were acquitted on the ground that they had acted in good faith.

Hand Fed Calf

Where the calf is to be reared by hand, it may be separated from its mother immediately or allowed to stay with her for from 24 to 36 hours. We find it better to allow the youngster to take nourishment direct from its mother for a few times and then separate them permanently. The first milk direct from the fresh cow is of the right temperature and possesses food qualities of the right sort to start the digestive organs of the infant calf in good working order. It does not spoil the young calf to thus allow it to remain with the cow for one or two days, as some think. When it is removed it can be taught to drink milk as easily as when it is only a few hours old.

Woman's High Duty

That on woman rests the duty of cleaning the "dirty game" of politics as it has long been termed, is the belief voiced yesterday in an address before the Woman's City Club in Los Angeles by John Graham Brooks of the University of California. He said:

"It is only when women bring their experience and sense of justice to bear on the questions of the hour that the whole truth in many matters will be known."

"I hope that all women in this country soon will have the chance that the women of California have of assisting in the constructive good of the community. The word politics should become one of the most sacred words in the language instead of indicating, as it does in some cities, a 'dirty game.' The policy of a country is merely a reflection of its business methods and in order to change the policy from one corrupt to one wholesome it is only necessary that the reflection should be of wholesome methods."

After discussing the uses that the new policy may be made to fulfill, the speaker concluded: "There is no time so good as the present for the entry of the new policy."

Whistling For Beauty

Miss Agnes Woodward, an adept teacher of whistling who is instructing Southern California girls in the gentle art of whistling, declares that whistling wins its devotees both health and beauty. A Cupid's bow mouth being one of its most desirable results from the lip pucker necessary to produce real flute-like whistling.

That every girl will begin to emulate the birds is now a sure thing.

Missionary Meeting

The ladies of the First Christian church will hold their regular monthly missionary meeting in the parlors of the church tomorrow afternoon. All are cordially invited to attend.

House Party Reunion

The members of a recent Alta Vista house party at the home of Miss Edith Wells recently had a reunion at the home of one of the girls of the party, Miss Hazel Rowley, Mrs. A. R. Rowley who was chaperon, be-

ing the hostess. Alta Vista holly-eaunted the Rowley home, and cheerful games were played during the evening. Miss Virgil Potts also gave a reading.

The refreshments were prepared and served by the party, the place-cards and setting of tables also being the pleasant duty of the guests. The party included Mrs. Rowley, Misses Edith Wells, Nellie Bacon, Virgil Potts, Carrie and Nancy Elder, Hazel Rowley, Josephine McCrory, Charles and Glenn Tidball, Stanley White, Joe Woodside, Howard Martin, Linn Shrewsbury and Arthur Anderson.

Young Ladies' Travel Club

The Young Ladies' Travel Section will meet with Miss Louise Long of Tustin on Wednesday afternoon.

Congregational Mission Society

The Woman's Missionary Society of the Congregational church, will hold its December meeting Wednesday at 2:30 p. m. at the home of Miss Stebbins, 619 Bush street.

Philharmonic Society

Until some change in plan is made the Philharmonic Society will meet at the home of Dr. Waffle on Tuesday evenings.

New members will be accepted during the next three weeks.

Ladies Are Grateful

The ladies of the Sunshine Society feel deeply gratified to the public or the generous patronage that made last Saturday's bazaar so great a success. The money realized from the sales will add a liberal sum to the society's treasury to be expended later for benevolent purposes.

Special thanks are due to Remsburg and Lindsey for the use of their room and display windows; and to Liebig and Johnson for furnishing tables.

The ladies practically closed out all their wares and are greatly pleased over the result.

Personals

Mr. and Mrs. Joseph Yoch and their daughter, Miss Josephine Yoch, will spend the next three months in South Pasadena. Misses Caroline and Josephine Yoch are residing in Los Angeles, so the Yoch home will be quite deserted.

Dan Thomas has returned from Montana and is visiting his family here.

C. C. Collins has gone East on a business and pleasure trip, expecting to make an extended stay. He will visit relatives in Colorado and Ohio while absent.

J. Wylie Harris was a morning passenger to the city.

Mrs. O. H. Burke spent today in Los Angeles.

Mr. and Mrs. Ray Steadman have returned to Santa Ana for permanent residence after spending a few weeks in Los Angeles. Mr. Steadman is now with B. E. Turner.

Miss Mary Binford and Mrs. Charlotte Elliott returned from the San Juan Hot Springs with which they

were greatly delighted. The stage accommodations, they report, as rather poor. The ladies walked from the springs to San Juan Capistrano in order to take the train here.

Mr. and Mrs. E. G. Glenn and Miss Margaret, have returned from Needles, where they had a delightful visit with Mr. Glenn's mother and sister.

Mr. and Mrs. J. M. Akins have moved into Santa Ana from Newport Beach. They have purchased the property at 501 East Pine.

Clyde Walker journeyed to Los Angeles this morning.

Mrs. M. D. Bellows was a today's visitor to the City of the Angels.

Mr. and Mrs. C. W. Lamme were among Santa Anans who traveled to Los Angeles this morning.

Mr. and Mrs. E. E. Keech were early passengers on one of the Los Angeles bound trolley cars this morning.

J. S. Talcott paid a business visit to Los Angeles today.

Mrs. A. A. Avery spent today in Los Angeles.

Messrs. I. M. and Miles Von Schrittz and Arthur Conaty left this morning for Mexico, expecting to be absent for three weeks.

Mrs. C. S. Kendall spent today in Garden Grove visiting former Phoenix, Ariz., friends who have come to this state for permanent residence. They have bought a ranch property near Garden Grove and expect to enjoy life in this equable climate.

Madame Hughes - Thomas' Royal Welsh Ladies' Choir

Attendant upon the visits of the Royal Welsh Ladies' Choir are benefits that are, both directly and indirectly, incalculable in their value in more ways than one. Foremost among these is the inspiration of the music—an inspiration that wakens talents and pleasures which were hitherto dormant in the listener; and once awakened, these attributes will make an incessant demand upon the individual affected to cultivate his talent and to assuage his craving for the higher pleasures of life. The general musical education disseminated by the ladies' choir is also of such a kind that will permanently benefit the general public, musical and otherwise. To miss a concert given by the Welsh ladies is just like slipping a notch in the wheel of musical progress. One needs not persuade the really musical man or woman to go and listen to the choir, but it is the duty of every musical American to persuade the indifferent public to go and hear the Royal Welsh Ladies' Choir whenever it comes their way. They owe that much to art and education, and to the ladies who sacrifice the love of home to tour in a distant land for the love of art. Encourage your friends to hear this most wonderful singing party at the Grand Opera House on Tuesday, Dec. 19.

They came, they sang, they conquered. It is almost impossible to compliment sufficiently the ladies of this company, individually or collectively, to do justice to their delightful singing. They have been praised enthusiastically by the exacting critics, and their singing here last night fully justified the good things said about them. From the beginning to the end of their program they were applauded heartily, and their good nature in responding to the encores was so great that they must have doubled the bill.—Brockville Times, Brockville, Canada.

The choir will visit this city under the auspices of the Orange County Conservatory of Music.

DATE MUFFINS

(Recipe by Mrs. Helen Armstrong) This recipe has met with considerable favor at Mrs. Helen Armstrong's cooking lectures. Taste these muffins once and you will want more:

Cream three tablespoons of Cotto-lene with four of sugar and add two beaten eggs, also two-thirds of a cup of milk. Sift two cups of flour with two teaspoons of baking powder, a little salt and nutmeg, and add three-fourths of a cup of dates cut small. Pour first mixture over this, beat thoroughly and bake in greased muffin pans.

Cottolene makes pastry that is light, delicious and digestible.

Licensed Yesterday

A marriage license was issued in Los Angeles yesterday to August Hacklander, 21, and Louise Trim, 23, both of Santa Ana.

Too Late to Classify

FIRE IS REPORTED AT NEWPORT BEACH

It was reported this afternoon that a bad fire is in progress at Newport Beach, said to have started at Peabody's store. The telephone lines are out of commission.

BLUEFIELDS WAS ALMOST CONSUMED BY \$300,000 FIRE

WASHINGTON, Dec. 12.—After BLUEFIELDS, Nicaragua, Dec. 12, traveling around the world for eight

—Fire on Sunday night destroyed property here worth between \$300,000 and \$500,000 and at one time threatened to wipe out the town. Inadequacy of the fire-fighting apparatus, of which a primitive hand-pump is the chief piece, and a high wind that fanned the flames were responsible for the conflagration. The Hotel Peterson escaped. The office of the Bluefields Steamship Company, close by, was in the path of the flames, which spread from there to the big triangle house of the Central American Trading Company.

PARASITE TO KILL ORANGE PEST FOUND BY WOGLUM

—Carbon Canyon colt, \$13 per ton, Garden Grove. Junkin & Keeler.

—Shippers of early San Joaquin Valley navel oranges are again jubilant. Prices ranging from \$2.00 to \$2.50 per box are being netted by the growers up there. From now on Messrs. Turner and Wheaton, of Santa Ana, will take weekly excursions north to view their beautiful KINGS RIVER THERMAL TRACT, which is being subdivided into 10 to 40 acres parcels, with full irrigation facilities, at only \$100.00 per acre.

AGAIN THE EARLY BIRD

313 West Fourth St.

AT THE COURT HOUSE

GARCIA GUILTY
OF BURGLARY

Mexican May Get Five Years
For Robbery of Room at
Arcade House

Francisco Garcia, a smooth-handed Mexican, was yesterday found guilty of burglary in the second degree, the limit of sentence for which is five years. The jury was out but eleven minutes when it brought in a verdict of guilty of burglary in the second degree. There was no evidence obtainable to show whether the room was burglarized in daylight or in the nighttime, which distinction makes the difference between first degree and second degree burglary.

Garcia was defended by A. J. Green, a Los Angeles attorney who has appeared for a number of Mexicans here.

One of the witnesses called by District Attorney West was W. E. Riese, serving a term in the county jail for contributing to the delinquency of a minor. Riese stated that Garcia had told him that he had robbed a room at the Arcade lodging house. The place is on East Fourth near the depots.

"Were you not one of the leaders in the attempted jail-break recently?" asked Green.

"No, I was not a leader," said Riese, "but I would have gone out if we had gotten that hole big enough."

Garcia is to be sentenced tomorrow morning at 9:30 o'clock.

Hot Fight in Sight

A hard fight is sounded by the filing today of a quiet title suit in which Fred Fette, a Los Angeles attorney, as administrator of the estate of Maurilla Thomas, is plaintiff, and C. W. Hedges, O. W. Gregg, Louis W. Bushard, Henry H. Crone, Louise Royer, Anaheim Investment Co. and Lottie M. Tice are defendants.

Maurilla Thomas died on July 8, 1907, leaving ten acres of land, com-

prising the southwest quarter of lot 48, Anaheim Extension.

The exact details of the ground upon which suit is brought are not known here, but it appears that the estate was never probated, or at least the Anaheim property was not disposed of through the estate. Recently some one showed up in Los Angeles with information concerning the Anaheim property, which had been disposed of in some way to bona fide purchasers, presumably the defendants in the action. The tract has been subdivided and partly sold off, and the estate sues for title to the property. H. A. Massey of Los Angeles is attorney for the plaintiff.

Suit on Note
J. E. Stone today brought suit against J. G. Delozier to foreclose on a \$300 note signed at El Centro on Nov. 23, 1909. An interest in lots 5 and 7, block 405, Huntington Beach, is mortgaged. Head & Marks represent the plaintiff.

Both Too Young
County Clerk Williams this morning refused to issue a license to Walter F. Mohr, aged 20, and Marie Oliver, 17, both of Los Angeles. Both were under age, and neither had the consent of a parent.

Hearing Appeal
Judge West today is hearing evidence in the appeal case of Ben Draper against Ben Goldwater. Draper sued at Los Alamitos for \$200 because Goldwater's automobile scared Draper's team and caused it to run into a barbed wire fence.

Marriage Licenses
Marshall J. Anson, 35, and Lottie V. Dudley, 26, both of Los Angeles; Edward T. Black, 24, and Helen E. Arundell, 20, both of Los Angeles.

CORONATION DURBAR
IS NOW OPEN

(Continued from page one)

"star of India" and the national flower, the lotus, shaded a mass of color that was positively bewildering. The chiefs were all clad in their state robes of brightly silks and cloth of gold, and to avoid any squabbles about precedence, they had been well mixed up, so that there were no patches of color representing any particular states or religions.

Shortly before noon the booming of cannon announced the departure of the King and Queen from their camp, and when they arrived at the arena the one vacant space in the color scheme was filled. Six horses weighted down by gold-spangled harness, drew the royal carriage, and their majesties were escorted by a body of princes, heirs to some of the proudest thrones in India, and squadrons of cavalry, British and native. The blue, white and gold of the princely squadron was accentuated by the innumerable twinkling points of light where the sun shone on priceless jewels in turbans and sword hilts, while the white uniformed troops of the King's special body guard, of the Imperial Cadets, the brilliant apparel of the regular native cavalrymen, and the colors displayed by the British and native in fantry lining the route added to the picturesqueness of the scene.

General Sir O'Moore Creagh rode on the right of the royal carriage, which was preceded by that of the Viceroy and Lady Hardinge. With so many enormously wealthy native princes, doing their utmost to outshine each other, it behooved the King-Emperor to see that he was not put in the shade, so accordingly the King and Queen wore their coronation robes, lightened as much as possible to allow for the difference in climate, and their crowns and scepters.

Queen Mary wore the same crown that did duty in Westminster Abbey last June. Blazing in the center of it was the famous Koh-i-noor diamond which once graced the Peacock Throne of Shah Johan—last of the "great Moguls." King George's was not the imperial crown, but a new one especially made for the occasion. The utmost secrecy had been maintained over the details of its construction, and it was publicly shown today for the first time. As had been anticipated, it proved to be a magnificent creation, for in their efforts to design something to impress the native rulers, the royal jewelers had utilized nearly every gem of value possessed by the British royal family.

The assembly of princes rose to their feet as the King and Queen took their seats on the thrones, and Viceroy Lord Hardinge, Indian Secretary Lord Cromer, the Duke of Teck and the host of British noblemen and court officials, all in state robes and the peers wearing their coronets, grouped themselves round the steps of the dais. Behind and on either side of the thrones the King's bodyguard of blue-coated gunners of the Royal Marine Artillery, stood stiffly at attention, while the Seaforth Highlanders, in scarlet tunics and kilts, and green coated Rifles, formed a guard of honor around the flagstaff on which the royal standard was hoisted later.

Twenty-four stalwart trumpeters blazing in crimson and gold, advanced to the foot of the dais, and sounded a fanfare on their silver trumpets. The twenty-four instruments cost the British taxpayers \$2400.

Great Sale Holiday Goods!

As announced yesterday, we start today this STUPENDOUS SALE, HOLIDAY GOODS. Such a sale has never before occurred in Santa Ana—or elsewhere in fact, since fall prices usually prevail on this class of goods. But having recently purchased this store we feel that no more fitting event could introduce us to you than to offer this immense stock at a BIG REDUCTION FROM REGULAR PRICES.

We want you to understand that this is strictly a boni-fide sale—no goods marked up in order to make a correspondingly larger cut in price—but each item has had the ORIGINAL PRICE REDUCED. You'll save a FOURTH, A THIRD, and in many instances A HALF on your Christmas presents by attending this sale. Come today, or tomorrow to secure your pick—the assortments are large, but buying is sure to be rapid at these prices. A partial list is given below—many others not possible to include here are on sale marked in Plain Figures.

Dean's: Prices: Deeply: Cut

SELECT FROM

BURKE NAMED CLERK AND LACY POLICEMAN

HINTS AT PLAN TO CHANGE SYSTEM

Suggestion Was Made That
County do Assessing and
Tax Collecting

DEED ON GRAND WAS ACCEPTED

Eucalyptus Trees on South
Bristol Are to be Cut down
For Lights

The city trustees held a meeting last night for the purpose of receiving the resignation of City Clerk Ed. Tedford. There came also the resignation of Policeman J. W. Murray. The filling of the vacancies was carried through with dispatch, the trustees evidently having made up their minds in conference as to what they would do.

The applications of E. A. Wiley and Walter J. Morrison for appointment as policeman were received. When the time arrived for making the appointment for city clerk, Trustee Grubb said:

Today a plan has been suggested

THE LAUREL PATTERN in Silver Plate that Resists Wear

Something that will
brighten the home and
help to make Christ-
mas Merry. I have
this pattern complete
in all the fancy pieces
and the knives, forks
and spoons.

Will add charm and grace to any
table and gladden the hearts of the
entire household. Besides the Wal-
lace silver I have dozens of other
makes and patterns in both sterling
and plated.

Have a silver Christmas this
year. Nothing could be more satis-
sfactory.

Store open evenings.

J. C. BURKE

Tedford's Job Goes To Deputy At Courthouse

J. C. Burke, city clerk.
Theo. Lacy, Jr., policeman.

These were the appointments made by the city trustees at their meeting last night. Each appointment secured the five votes of the board. Burke will take office on Jan. 1, on which date City Clerk Tedford made his resignation effective. Lacy begins his duties on the night patrol tonight.

Burke's ability is unquestioned. For five years he has been County Clerk Williams' chief deputy, and has made an excellent record for efficiency. But a few weeks ago he successfully passed the bar examinations.

Theo. Lacy, Jr., best known as "Dodge" Lacy, son of former Sheriff Lacy, will make a first class city policeman. He was father under his father for six or eight years, he knows how to handle prisoners and his memory for faces of prisoners who have come under his observation is remarkable.

Burke and Lacy will take the places of veterans in the city's service. Tedford has been clerk for twenty-three years and Murray has been on the force almost fourteen years. Tedford will go to Los Angeles to take a lucrative position with a life insurance company, and Murray will go to Coalinga to work in the oil field.

whereby we might save the city from \$1200 to \$1400 annually. If such a plan is feasible, I should like time to consider it. I therefore move that the appointment of a city clerk be postponed until some later date."

McPhee: "May I ask what this suggested plan is?"

Grubb had no opportunity to answer as Chairman Ey stated that Grubb's motion was lost for want of a second.

The plan that Grubb had in mind, in short was this:

Allow the county officials to do the assessing and tax collecting for the city. The proposal has been talked over frequently of late. Fullerton and Huntington Beach now follow that plan, and the work is done at a cost of from \$200 to \$400 per city. Santa Ana employs an assessor, and pays an additional \$400 per year to the city marshal for collecting taxes. The change that Grubb is said to have had in mind was to have City Assessor E. L. Vegely resign as assessor, make him city clerk, and transfer the system of assessing and tax collecting to the county.

When Grubb's motion got no second, Greenleaf nominated Joe Burke for city clerk. A banot was taken and the five votes were for Burke.

Greenleaf then nominated Theo. Lacy, Jr., for policeman, and on the ballot, Lacy got five votes.

On McPhee's motion, the city clerk was instructed to request Burke to begin work in the city clerk's office as soon as possible, that he might get onto the ropes before Tedford leaves.

Want 4-Inch Timber

Trustee Alderman reported that local lumbermen say that a special order will be necessary if the city gets 4-inch timber instead of 3-inch

timber for nooring the Main street bridge. Grubb was instructed to see if the 4-inch timber can be secured within a reasonable length of time. The 4-inch lumber is much preferred for the purpose.

Charge Rooming Houses
McPhee: "Mr. Alexander of the Rossmore Hotel called my attention to the fact that the Rossmore, Alerton and Richelieu are the only rooming places in town paying a city license. He does not object to the \$1 a month license, but he thinks all rooming houses ought to pay."

Tedford said the ordinance calls for license for hotels but not for rooming houses. It was suggested that an amendment be passed with a sliding scale for licenses for rooming houses and lodging houses, according to the number of rooms, with no license for places renting out less than five rooms. A committee is to draw up the amendment.

Bids on Lease
McPhee stated that Thorp had asked for a chance to lease a 5-acre tract on West First belonging to the city. Tedford said it was rented to a man for \$20 a year, but no rent had ever been paid. Robinson, a rancher, stated he would like a lease on the five acres, but would not care to pay much the first year as the ground is in bad shape.

The trustees decided to offer the lease to bids, to be received next Monday night, for two and three years.

Up to English
The street superintendent was asked to deliver all old useless lumber from the Main street bridge to the janitor of the city hall for use as kindling wood.

Ey stated that the city had been getting twenty-five cents a load for street sweepings, and a man named ball now offers fifty cents. Street Superintendent English said that this week Frank Adams began taking the sweepings, and pays fifty cents per load and will take all the sweepings. The matter was left in English's hands.

Nothing Doing
Greenleaf: "I should like to have the board consider the advisability of appointing another policeman for duty along the railroads for the next two or three months. It is dangerous for one man on that beat. It is not safe for one policeman."

Grubb: "I cannot see why it is necessary to hire a body guard for a policeman."

McPhee: "Ryan, the man on the railroad beat, is a good, faithful officer, and while it would take more than one man to arrest all the hoboes, I think the best plan for him to follow is to pass them along, keep them going, and pick out for arrest only the worst ones."

Adjournment was taken to Dec. 18. Property owners on South Main street petitioned for cement pipe approaches at corner. The petition was referred to the street committee.

Several owners on Grand avenue from Seventeenth to Santa Clara protested against making any change in the width of the avenue. This was in reference to Rohr's offer of a deed for widening the street ten feet. Alderman moved to accept the deed, but with the understanding that the adjoining owner, Laird, continue to have the use of the strip.

Owners on Seventeenth from Main to C street petitioned for gravel and oil paving, the owners to pay \$15 per lot. A. R. Dresser signed conditional that the gas company settle the dirt in a trench it has left. The petition was referred back for further signatures.

Alderman said he thought the city ought to require owners who take advantage of the gravel and oil plan to put in a cement curb and cement gutter before the city pays anything on the improvement.

Grubb said he favored all curbs possible, but thought the requirements would keep people from making the improvements.

L. A. Sweet asked the board to order the electric light company to move a pole which stands where Sweet wants to put down a sidewalk. The order was made.

Ey: "It should be done. Two poles in front of Mr. Bishop's house were ordered moved, but they are still there."

Page and others protested against the failure to put lights on South Bristol.

McPhee said that on that street in front of Sebastian's there are some gum trees that are so thick that it would be useless to put lights on the street. McPhee thought it well to order the trees down. Sebastian was ordered to remove the trees immediately. If he does not cut the trees, the city will, and take the wood.

An ordinance giving a new schedule of water rates was passed on second reading.

A resolution of intention was passed in furtherance of the Vrooman Act proceedings for constructing sewers in the Pacific Electric tract.

New Subdivision

A map was presented for the subdivision of five and a half acres on Hickey street at Garnsey. McPhee said the map would call for a jog in Garnsey but that it was the only feasible way of laying out the tract.

"They will grade and lay sidewalks and curbs," said he, "and while I do not like jogs, I will favor accepting the map in order to get the improvements."

Grubb: "I oppose jogs, too, but all three streets to the east also jog at Hickey street, and for that reason I can see no other way than to grant the petition." The map was accepted.

Ashby Turner for the tract said it would sign up for gravel and oil on Hickey as far west as Flower street.

I teach German conversationally, requiring no study. Expert tutoring for young people. Siegel, 816 North French street.

SELL RIGHTS TO THE UNION

Important Developments are
Shown—Further Spread of
the Oil Fields

Big Companies are Making
Excellent progress on La
Habra Holdings

FULLERTON, Dec. 12.—One of the most important developments in the Fullerton field in some time is the announcement of the sale of rights to several hundred acres of land east of the Amalgamated and south of the Olinda Land Company's holdings to interests said to represent the Union. This land has been under agricultural lease to Jerome and Cook.

The new arrangement requires that six oil wells shall be put down, or at least started, within six months, and that six more be started within the following six months. These plans mean a large amount of new activity, as well as a definite movement to the east, with development in the south field, and in the event of success, will prove up large territory to the east of the present known field.

The Amalgamated and the Standard are making excellent progress of their holdings in the east end of the La Habra Valley. The former is still going into the oil sand with Nos. 2 and 3, without much change from the past week, and satisfactory progress is also being made on its other drilling wells. The Standard is also making rapid progress on its well near the Amalgamated. The Standard has a long line of leases in hand at present, and it will be necessary on some of these to begin work in a short time.

The Industrial Oil Company's rig builders are now erecting the rig for the company's latest well, No. 53, which is situated near the old power plant. The Brea Canyon Oil Company has been experiencing trouble for the past two weeks with tools stuck in two drilling wells. The crews have been kept busy on the fishing jobs, and it is expected that the holes will be cleared before long and drilling resumed.

The machine shops of the field are all running full tilt and present a scene of activity.

QUALITY OR QUANTITY

Which Do You Prefer?—New-
bro's Herpicide Represents
Quality

Did you ever have a dealer offer you a large bottle of something and tell you it was a better remedy for the hair than Newbro's Herpicide and cheaper because in a larger bottle?

What? Certainly you knew you had.

Many other people have told me that. What would you say to that same dealer were he to tell you a silver dollar was worth more than a five-dollar gold piece because it is larger.

Such an attempt being a reflection upon your good sense you would probably say some rather pointed things to him. You would be justified. Your self-respect would demand it.

Well, there are just as many good reasons for the difference in size between those bottles as there are for the difference in size between the silver dollar and the five dollar gold piece.

The truth is that the large bottle isn't half large enough.

There is more virtue in a half pint of Newbro's Herpicide than in a gallon of some of the so-called hair preparations.

There is a dollar's worth of results in the bottle of Herpicide, but do you know what is in the other?

No? Then why buy it? Your judgment, intelligence and the experience of your friends, if not your own, cry out against it.

You know when you go into that store that Herpicide is what you need and want.

You KNOW that Herpicide is the original scalp prophylactic.

You KNOW that Herpicide kills the dandruff germ.

You KNOW that Herpicide stops falling hair.

You KNOW that Herpicide makes the hair light, fluffy and beautiful.

You know these things in the same way that you know that the five dollar gold piece, notwithstanding its size, is more valuable than the silver dollar.

Then insist on having genuine Herpicide.

One dollar size bottles are sold and guaranteed by all druggists.

Applications obtained at the best barber shops and hair dressing parlors.

Send 10 cents in postage or silver for sample and booklet to The Herpicide Co., Dept. R., Detroit, Mich.

Rowley Drug Co., Santa Ana, Tustin Drug Store, Tustin, special agents.

Statement Extraordinary

of the condition of the

First National Bank

of Santa Ana, at Close of Business Dec. 5, 1911

Not an "extraordinary" statement with respect to resources and volume of business---though it is pretty good in that way, thanks to the confidence and esteem of the public for this institution---but "extraordinary" in its fullness and frankness of detail.

RESOURCES

LOANS AND DISCOUNTS \$1,102,820.12

This account represents money loaned on high grade collateral and approved paper of reputable firms, corporations and individuals, selected with greatest care and judgment.

UNITED STATES BONDS 205,000.00

These are deposited with the Treasurer of the United States to secure the circulation (Bank Note Currency) of the Bank and the deposit of Government Funds; this Bank having the honor of being a United States Depository. Although these Bonds are worth a premium, they are carried on the books of this bank at their par value, all premiums having been charged off out of the Surplus Earnings of the Bank.

OTHER BONDS 156,255.00

This amount represents the money of the Bank invested in Municipal, School District and other high-grade Bonds.

OVERDRAFTS 3,919.92

This amount is the total of overdraft accounts—a matter of temporary accommodation to business men of unquestionable integrity and financial solvency, upon whom demands for money fluctuate from day to day.

BANKING HOUSE FURNITURE AND

FIXTURES 69,000.00

This is the First National Bank Building, on the corner of Fourth and Main streets, Santa Ana, together with the amount the Bank has invested in Office Equipment, such as Safes, Vaults, Furniture and Fixtures, etc.

OTHER REAL ESTATE 2,000.00

FIVE PER CENT REDEMPTION FUND 10,000.00

This is a deposit of \$10,000.00 we keep constantly in the hands of the U. S. Treasurer for the redemption of National Bank notes issued by us—mutilated currency, or currency sent in for redemption for any reason whatever. When the U. S. Treasurer redeems any of our currency with any part of this fund, we immediately make deposit of enough to bring it up to the required \$10,000.00.

CASH 931,790.91

This is money in our Vaults and on deposit with approved reserve Banks, and with the Treasurer of the United States. It is thus always available for immediate use.

TOTAL \$2,480,785.95

LIABILITIES

CAPITAL STOCK \$ 200,000.00

This is the amount of money paid into the Bank by its stockholders as the foundation of the business.

UNDISTRIBUTED SURPLUS AND PROFITS .. 144,180.03

None of this has been paid in by stockholders, but has been accumulated from the earnings of the Bank and set aside as an additional safeguard.

CIRCULATION 200,000.00

This item is made up of National Bank notes outstanding. This bank is authorized by the Government to issue these notes in denominations of \$10.00 and \$20.00. They are guaranteed by bonds of the United States Government deposited with the Treasurer of the United States.

DEPOSITS 1,936,605.92

This amount represents money belonging to our thousands of satisfied customers who appreciate legitimate, conservative, straight-forward and safe Banking Methods.

TOTAL \$2,480,785.95

IN SELECTING YOUR BANK, THE QUESTION OF SAFETY SHOULD BE ABSOLUTELY THE FIRST AND GREATEST CONSIDERATION. EVERYTHING ELSE IS SECONDARY.

SAFETY IN THIS BANK IS GUARANTEED BY CONSTANT AND STRICT SUPERVISION OF ITS AFFAIRS BY THE UNITED STATES GOVERNMENT, BY THE SUPERVISION OF AN ACTIVE BOARD OF DIRECTORS, BY THE PERSONAL ATTENTION OF THE OFFICERS OF THE BANK, BY ITS LARGE CAPITAL AND SURPLUS FUND, BY ITS UNSWERVING CONSERVATISM, AND BY THE UNIFORM POLICY OF ITS MANAGEMENT ALWAYS TO PLACE THE INTERESTS OF DEPOSITORS BEFORE ANY OTHER CONSIDERATION.

OVER TWENTY-FIVE YEARS OF ACTIVE AND SUCCESSFUL BANKING IS OUR RECORD.

The stockholders of this Bank own the Capital Stock and Surplus of the SANTA ANA SAVINGS BANK.

FOUND BODY BESIDE TRACK

Mother of Chas. Schultz Died

Suddenly in Los Angeles

Last Night

Charles Schultz, a harness maker at Wm. F. Lutz Co., received word this morning that the dead body of his mother had been found in Los Angeles lying beside a railroad track. It is understood here that death was due to natural causes. Schultz went to Los Angeles this morning.

Concerning the discovery of the body, the Examiner this morning said:

"With a dog, the last faithful friend, watching over her dead body, an unidentified woman was found late last night lying beside the Salt Lake tracks by P. Taylor, a switchman."

"No enlightening circumstances surround the case to give a clue to the identity of the woman. Whether she was murdered and thrown beside the tracks or hurled aside by a passing train is a mystery."

"Taylor, the man who first discovered the body, was riding on a switch engine slowly past the place when he spied the prostrate form beside the tracks. Signaling for the engine to stop, he alighted and investigated the matter. When he found no life in the woman's body he telephoned to Bresee Bros. undertaking establishment, where the remains were eventually taken."

FRANCHISE IS A NECESSITY

Huntington Beach Passing

Ordinance Keeping String

on Public Utilities

HUNTINGTON BEACH, Dec. 12.—

The city trustees have decided that any person or corporation desiring to establish gas works or other public utilities here must first obtain a franchise from the trustees. An ordinance embodying the decision is being prepared, and will be passed next month at the meeting of the trustees.

The funeral of Mrs. Mary E. Hinton, who died here Thursday night, took place yesterday, services being held at the Baptist church and interment being made in the local cemetery. Decedent left one child, Mrs. P. S. Shoeman, who resides here.

In the basketball games between the girls' and boys' teams of the local high school and the Fullerton high school, played here yesterday afternoon, the Huntington Beach teams were victorious. The score of the boys' game was 83 to 57, of the girls' game, 21 to 17. The latter was close and exciting.

The local lodge of Odd Fellows has elected officers for the coming year as follows: John H. Pope, N. G.; J. T. Reed, V. G.; H. B. Little, secretary; E. H. Darling, treasurer; E. E. Fleming, trustee.

OLD DEFENSES ARE ABROGATED

Industrial Liability Board

Interprets the Roseberry

Liability Law

Having weighed the issue and determined to remain under the "Liability for Damages" provisions of the Roseberry law, what is the status of the employer of labor?

Before the first of September, 1911, he might have pleaded in defense of a suit that the person injured contributed through his own negligence to his own injury, and if the plea was sustained by evidence the action would be barred, no matter how slight the contribution of negligence on the part of the injured person or how gross on his own part.

Under the Roseberry law such action for damages cannot be barred where the injured person's "contributory negligence was slight and that of the employer was gross in comparison," but the issue will go to the jury to determine the damages with reference to the comparative negligence of both parties, except that the defense of contributory negligence on the part of the person injured cannot be set up, "Where the violation of any statute enacted for the safety of employees contributed to such employee's injury."

There is a good deal of negligence that is not negligence. The mind has not the body in complete control at all times and the most careful of men will sometimes make a misstep, or stand in harm's way unknowingly. Negligence sufficient to bar a suit should carry with it some moral culpability, disobedience or misconduct. The old common-law doctrine of "contributory negligence" is, therefore, modified in the interests of the injured person, although not abrogated or made quite a doctrine of "comparative negligence" pure and simple.

The old common-law doctrine of "assumption of risk" has been abrogated. Under that doctrine it was assumed that whoever accepted employment accepted with it all the risks that attend such employment. It was also assumed that the wages paid would be enough greater in a dangerous occupation than in a safe one to cover the risk. This was judge-made law and grew out of the judicial habit of reasoning things out in the solitude of judicial chambers instead of opening the judicial eyes to common, every-day facts of life. A little observation would have shown any judge that those who toil rarely can, if unorganized, choose under what conditions they will work but are pushed by necessity to take such work as they can get at such wages as the employer is willing to pay and that some of the most dangerous occupations are the poorest paid.

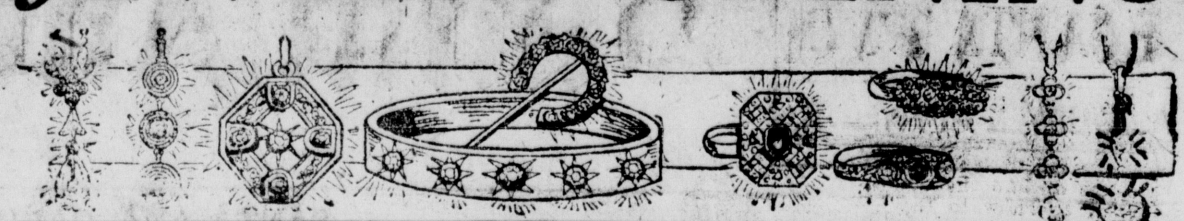

Under the Roseberry law the industry, itself assumes the attending risks. That is, it is the philosophy of this law that each industry should take care of its own killed and wounded and add the cost of so doing to the cost of the product to be paid by the ultimate customer, which can only be done through some form of insurance. This will be more fully considered later on.

Formerly an action for damages could not be sustained where an employee was hurt through the carelessness of a fellow workman. That also was held to be an assumed risk of the occupation. The Roseberry law abrogates that doctrine absolutely. The employer is now primarily responsible for the carelessness of employees who hurt others and it never would have been otherwise had not the courts that made such laws felt and thought as the employing and not the laboring classes, felt and thought. The burden was placed upon those least, and not best, able to bear it with the result that, in the history of industry, countless thousands were crowded below the poverty line where they became a burden upon charity and a menace to the peace and order of the commonwealth.

DOMESTIC SCIENCE AND ART IN THE SANTA ANA HIGH SCHOOL

BY ETHEL G. HINKSTON

A prevalent idea of Domestic Science is that it is the fad of learning to do what domestics do and the object of this paper is to show to the parents and teachers gathered here in the interest of education that Domestic Science and Art are not fads nor fancies but are essential subjects for the high school girl to study to prepare her for life and her position in the world as homemaker, wife, and mother.

The work finds its suggestion in the home and thus becomes an important factor in correlating the school with the home life. Too much emphasis cannot be put on this side of the question. The home makers have always been women, the care and manage-

ment having been at all times in their hands but in this day girls are often led away from so proper conception of this side of their vocation. In a real home each must feel the importance of his or her share by doing or making something for it. The problem before us is: What is the girls' part? How can she be led to have an understanding of it, that when she has a home of her own she may be better fitted to take care of it? The answer is found in the study of Domestic Science and Art.

Statistics show that over 70 per cent of the female population of the United States is engaged in housekeeping and only about 10 per cent in professional work such as teaching, practicing medicine, law, etc. Yet there is no business except homekeeping on the face of the earth in which so many people engage with little or no preparation to fit them for it.

ained. It is here that much of its value is a mind developer lies. The materials are varied and easily spoiled by stupidity and carelessness. It needs judgment and knowledge to select those which will give the desired result, judgment and experience to decide upon the proportions and quantities and exactness and carefulness to measure them. Even the shape of the utensil affects the result as well as the amount of labor involved. The motions require force and directions in the use of the knife and in the mixing motions. Taking all the elements into consideration cooking affords a happy combination of experimental and constructive work with great economic and social value where applied science is an ever present factor and where the movements and processes have a training not often appreciated.

The useful and often beautiful results of work with the needle appeal to the average girl. She is familiar with these results but often entirely ignorant of the processes involved in bringing them about. She more often has little ability to solve the problems of every day life with which she is sure to be confronted sooner or later. It is believed that by training girls to work thoroughly and systematically and by demanding that the work shall be thought out before it is done, that many of the failures which so often discourage pupils will be overcome. To accomplish this end the work is made as practical as possible. We do not spend time and effort making samples and things of comparatively no use. Most girls in the high school have some knowledge of sewing so the work is begun on underwear. Beside the mere sewing the pupils learn to cut by a pattern and to fit each other. In the middle of the year drafting will be taught when each girl will draft a shirt waist pattern to her own measurements and construct a shirt waist from it, after which a simple dress

will complete the year's work.

The artistic, as well as the useful side of sewing is emphasized. Adaptability to purpose, fitness of design, structure and color dealt with. Each girl is allowed to express her own individuality. Later in the course the class will take up the study of textiles so that they may know how to tell good materials from bad, their relative values and how to buy them.

In the millinery work practice in making frames takes up the time during the first quarter of the year. The girls must acquire skill and dexterity before they can handle delicate velvets and silk, so the first buchram frame is covered with cotton flannel which makes a very good substitute for the finer materials. On this hat they are required to place a binding over the edge beside placing folds and bows of cambric as trimming around the crown. The standard of work is the same as though the material was the finest. After completing this hat each girl may choose her own style and shape and make a hat for herself using any material she wishes as covering.

The second half of the year wire frames are to be made and covered with straw. The combination of colors will be considered throughout the course and practice given in tying bows, making artificial flowers out of ribbon and other work so that the girls may acquire the lightness of touch which is essential to be successful in the work.

The girls are each and all interested and enthusiastic over the subject. We were sorry that some girls in the school who had registered were unable to take the work because there is only room for twenty-four girls in each class, but I hope that before their graduation each girl who is interested can study the subject and that many homes will be made brighter and happier thereby, and that housekeeping will become a pleasure and a joy instead of a drudge and a burden, as is the case in so many homes today.

A HEALTHY, HAPPY OLD AGE

May be promoted by those who gently cleanse the system, now and then, when in need of a laxative remedy, by taking a desertspoonful of the ever refreshing, wholesome and truly beneficial Syrup of Figs and Elixir of Senna, which is the only family laxative generally approved by the most eminent physicians, because it acts in a natural, strengthening way and warms and tones up the internal organs without weakening them. It is equally beneficial for the very young and the middle aged, as it is always efficient and free from all harmful ingredients. To get its beneficial effects it is always necessary to buy the genuine, bearing the name of the Company—California Fig Syrup Co.—plainly printed on the front of every package.

PTOMAIN POISONING AT BANQUET FOR BISHOP

BALTIMORE, Dec. 11.—Much to the chagrin of the Methodists of this city, at least fifty persons who attended a banquet at the Lyric last Thursday night in honor of Bishop Quayle, of Oklahoma, were taken ill after returning to their homes. That many ministers and their wives and well-known business men were affected, is due, it is believed, to something they ate, thus producing mild cases of ptomaine poisoning. The ailment only lasted for a day, Bishop Quayle, it is understood, also complained of an ill feeling before he left the city.

Wedding Ring Lightning's Mark
During a violent thunderstorm at Berwick, England, an extraordinary incident occurred. Mrs. Mason of Castlegate was in bed with her hand resting on the counterpane when a flash of lightning entered and struck her wedding ring, taking a small piece clean out of it. Her hand was uninjured.

DRESS GOODS

Are highly appreciated. You will find correct shades and styles here at from 50c to \$2.50 per yard.

The story of Christmas to the story of human sacrifice the charm of Christmas is the charm of generosity. Sacrifice and generosity go hand in hand.

Crookshank - Beatty Co.

A Double-Headed Christmas Gift!

TWO FOR ONLY \$9.00 NOW

spreads—fine for the chafing dish—and it is always ready—no fume—gas—dirt—or grease.

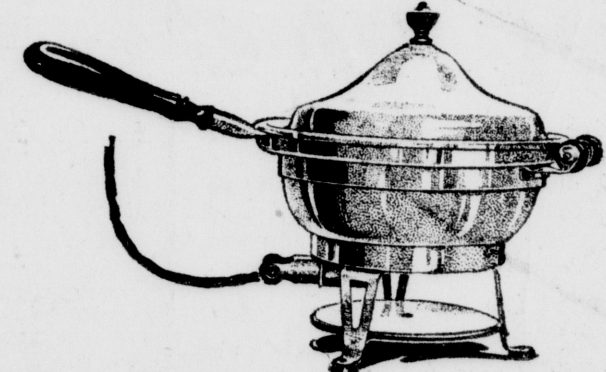

El Stove deserves a place in every home that is electrically lighted. It is not a novelty or toy—but an efficient stove—and it is yours for \$4.00 until Christmas.

Now often you have wanted to cook some dainty dish or heat something—but put it off because the fire was out—or it was too hot to start a fire—or you didn't want to chase way out to the kitchen—or maybe any of a hundred reasons which would have no existence, had you possessed an El Stove—our Christmas price for which is only \$4.00.

El Stove is an electrically heated 6 inch disc stove. Can be used in the kitchen, dining room, veranda—anywhere there is a light socket to which it may be attached. Turn the switch and it is ready.

It is beautifully finished, being nickel plated and polished to a mirror surface—making an attractive addition to any sideboard or buffet—giving a tone of quality—a suggestion of daintiness.

The polished lower shelf prevents the heat from injuring the most highly finished surface—and the fiber-tipped legs won't scratch the most delicately polished table top. So handy for little

The chafing dish fits on El Stove and makes a beautiful and perfect appliance at an additional cost of \$5.00. The chafing dish is finished in magnificent style. The electric chafing dish is the "last word" for little luncheons and society events.

Don't forget the electric Percolator that is going now for \$5.00

VIGOROUS POLICY FOR 1912 OUTLINED BY COUNTY Y. M. C. A.

A policy has been outlined for the year 1912 by the county committee of the Young Men's Christian Association of Orange county. R. J. Hamilton, the new county secretary, plans to meet with the local committees of the associations and help them in planning the work in each town. The county committee is G. B. Key, chairman; E. W. Dean, vice chairman; W. B. Tedford, treasurer; Prof. J. F. Walker, clerk; H. W. Lewis, John Holditch, P. M. Gorman, A. E. Bennett, W. M. Wickert, C. C. Chapman, Harry Kenah, Chas. Eygabroad, F. D. Plavin, Dr. H. A. Johnson, Wm. Starbuck, Geo. M. Ross, W. L. McKenney, Alfred Higgins, S. R. Coate, C. H. Wallace, E. A. Douglas, Wm. McLaughlin, C. E. Frost, S. J. Little and Robert J. Hamilton, the county secretary.

The document outlining the 1912 policy follows:

With a deep sense of gratitude to God for the blessings which have resulted from the work done by the Young Men's Christian Association of Orange county since the beginning of the work here, and with the determination to make this coming year the best and most successful in our history, the county committee of the Young Men's Christian Association of Orange county agrees to the following policy for the year 1912:

Article I. What the Y. M. C. A. is

The Young Men's Christian Association is organized to promote the highest and best type of work by and among young men and boys for their own good and the good of others. It is a branch of the church, and as such aims to supplement the work of the church along spiritual, moral, physical, educational, social, and missionary lines. It aims to co-operate with every agency in the community interested in the good of others and whenever possible supplement their work, and to accomplish its mission it must have the hearty co-operation of such agencies.

As the committee entrusted with the organization, supervision and oversight of Young Men's Christian Associations in Orange county we wish to reaffirm our belief in this view of the place of the Young Men's Christian Association as a co-operative and supplementary institution.

Article II. Religious Work

Section 1. In the religious work of the Y.M.C.A. it shall be the object to co-operate with the religious agencies of the community in every way possible, supplementing them by offering additional opportunities to young men and boys for Bible study, religious meetings, evangelistic effort, personal work, and altruistic Christian service. As the religious life is inseparably connected with the physical, social and mental life, the Y.M.C.A. considers its physical, social and educational work as real religious work.

Section 2. The committee urges each local Y.M.C.A. to make a systematic, determined effort to see that every young man and boy in its field is related to some church and Sunday school.

Section 3. Every young man and boy interested enough in religion to be a member of a church or a Sunday school class should be enrolled in the Y.M.C.A. to help in carrying on this work for other young men and boys.

Section 4. Every association is urged to conduct a Bible class to train Bible teachers of young men and boys, and whenever these are considered competent inform Sunday school leaders of such.

Section 5. Every association should provide mid-week Bible classes for men and boys, uniting together in one class those from various Sunday schools to supplement the work done therein, and enrolling those not attending any Sunday school.

Section 6. Studies in personal work to lead men and boys into the Christian life and to church membership should be promoted by each association and consecrated efforts made to do this work.

Section 7. Each local association is urged to promote enough of the right kind of social life, of athletic events, and of educational features to build up the best all-round type of Christian manhood and to fill up the mind and life of the young men and boys of the community, so as to leave no time or place for those influences which dwarf and destroy the spiritual life. This, the committee feels, is a real religious contribution to a community.

Section 8. The committee refers to its committee on religious work the following suggestions for their careful consideration:

1. To conduct an examination for Sunday school boys of Orange county on the lessons of the first quarter during 1912, offering recognition of successful work by means of banners, ribbons, badges or other awards.

2. To work with the athletic committees of the local associations on some plan to encourage regular Sunday school attendance by means of athletics in some form.

3. To work out some plan to encourage daily reading of the Bible and the establishment of the "family altar."

4. To carry on evangelistic meetings during the year, using members of local associations and churches and deputations of college students.

5. To co-operate in the "Men and Religion Forward Movement."

6. To consider a plan of uniting the men's brotherhoods of the churches and organized classes in some sort of affiliation with the Y.M.C.A.

Article III. Educational Work

Section 1. The committee urges co-operation with school officials, superintendents and teachers in every possible way, and advocates the larger use of school houses and property for evening lectures, night school classes, meeting places and social centers.

Section 2. The committee approves of the plan to form a county league of the pupils of the schools who will agree not to use cigarettes or tobacco.

Section 3. The committee refers to its committee on educational work the following suggestions:

1. To work out a plan in connection with local Y.M.C.A. committees to take boys on educational trips to study nature and collect specimens, to visit factories, manufacturing establishments, museums, colleges, etc.

2. To work out reading courses for men and boys, and encourage systematic reading of the best literature. Also to co-operate with local committees and librarians in compiling and publishing lists of best books in the libraries of the county adapted to boys at various ages and for young men, and to suggest new ones to the libraries. Also to compile a list of helps for parents, Sunday school teachers and other workers with boys.

3. To encourage and assist local

associations in promoting talks on hygiene, first aid to the injured, and on various educational subjects; also to form classes for evening study.

Article IV. Social Work

The committee urges the local associations to give an important place in their work to promoting the right kind of social life in their communities, through socials for groups in the membership, banquets, receptions, camp fires, hikes, picnics, etc.

Article V. Physical Work

Section 1. In the physical work undertaken by the county committee it shall be our object to use such to encourage local associations, Sunday school attendance, and interest in the work along anti-cigarette lines.

Section 2. The committee recommends to the local associations to undertake some special activities along physical lines, such as track and field meets, baseball and basketball games, hikes, play festivals, scouting parties, hare and hound chases, bicycle trips, etc.

Section 3. The committee refers to a sub-committee a suggestion for a county baseball league based on regular attendance at Sunday school.

Article VI. Finances

Section 1. It is the policy of the committee to keep its financial and business affairs on the most efficient and business-like basis possible, making collections promptly when due and paying the bills of one month before the tenth of the following month.

Section 2. All bills shall be examined by the finance committee and when found correct signed by the chairman. This authorizes the treasurer to make out a check for the payment of such bills. These checks shall be valid only when signed by both the treasurer and the county secretary.

Article VII. Boys' Work

Section 1. As the most important part of Y.M.C.A. work is that carried on among the boys it shall be the policy of the county committee to emphasize very largely this branch of Y.M.C.A. work.

Section 2. The committee urges local associations, Sunday school workers, and all interested in boys to carefully consider the possibilities of using the Boy Scout plan and methods.

Section 3. As one of the most fruitful means of enriching and deepening the life of the boy is the summer camp, the committee heartily endorses such and authorizes its boys' work committee to plan for such.

Section 4. Each local association is urged to plan for a "Father and Son Banquet," a social evening or some other event to bring boys and their fathers together under Y.M.C.A. auspices.

Section 5. The county committee hereby gives its approval of the Student League known as the Y.S.L., organized by the high school students of Orange county at the Riverside conference of older boys, Dec. 1 to 3.

Section 6. The committee approves of the idea of the "Big Brother" movement and suggests its methods for use by the churches, Sunday schools, men's brotherhoods and local associations.

Article VIII. Corresponding Members

The corresponding members of the Y.M.C.A. have a very important duty in learning about young men going away to college or other cities and getting them into touch with Y.M.C.A. and church influences upon reaching their new locations. Realizing this, the committee shall endeavor to secure faithful work by a corresponding member in each town or district.

Article IX. Ladies' Auxiliaries

The mothers of boys in a community and other interested women can have a large part in the success of the local associations by helping in the social work, and by promoting mothers' meetings and parents' conferences to discuss the problems of boy life. The organization of such interested ones in the form of Ladies' Auxiliaries is advocated.

Article X. Local Associations

Section 1. Local Young Men's Christian Associations shall be organized by the county committee only in places where a majority of the evangelical churches there desire such and will properly support the same.

Section 2. Each local association is urged to adopt a policy for its work during the year, also a budget of its receipts and expenses, sending copies of the same to the county committee.

Section 3. As supervision of local work is a most important factor in the success and continuity of such work, the associations are urged to properly support the county committee financially and in every way possible.

Article XI. Y.M.C.A. Literature

As the interest of members of the Y.M.C.A. depends upon the knowledge they possess of the work and the progress it is making, the committee urges every member to regularly read "Association Men," the international organ of the Y.M.C.A., and "Rural Manhood," the magazine devoted to county Y.M.C.A. work.

Article XII. The County Secretary

The success of the county Y.M.C.A. work depends very largely upon having a competent county secretary. Realizing this, it shall be the continued policy of this committee to secure and retain such, supporting his efforts by personal assistance, friendly interest, and earnest prayer.

PIONEER PAPER CO., Los Angeles, Cal.
Address Department Pendleton Lumber Co. company, distributors of Pioneer Roofing, Santa Ana, California.

Hill's Corner

From time to time it is our purpose to remind everybody who cares to read the advertisements that appear in the Register that we are still "doin' business" at the same old stand, and perhaps some newcomer may thereby learn that we have the goods he will need, and if we can only induce him to come and get our prices of HARDWARE and stoves—Hoes, Forks, Rakes and Shovels; Barbed Wire, Wire Fencing and Wire Cloth; Bath Tubs, Sinks, Bowls and Toilets; Rubber Hose Rubber Belting, Washing Machines and Wringers and the thousand other things we have in stock, then he will know what he ought to pay the other fellow if he should choose to buy of him instead of us.

If we shall have set the tenderfoot on the right track so that he will not be too badly "taken in" we shall have accomplished one part of our mission in life and then if, perchance, he should conclude to return and buy of us the things he needs we shall have completed the job that we came here to do, which job we have been expecting to finish right here—make a living—and we are done! one day at a time. LOS ANGELES PRODUCE MARKET

Anything that looks like grapefruit is selling well. There has been a greater demand for this particular citrus than ever before, not only locally, but throughout the United States. There is practically none of the seedling variety on the market, and those dealers having light holdings are realizing fancy prices. Seedling grapefruit moved one well at the top figure of \$3.25 a box. A car of Porterville grapefruit is expected within a few days, and orders are being taken at about \$4 a box. The holiday trade is also going after oranges. Continued warm weather the past month has had a great deal to do with the large amount of citrus stock, especially navel oranges, arriving on the market. Navel went as low as \$2.50, with an upward range of 50 cents. Lemons were marked down very noticeably. The best are \$2.50 and \$2.75 a box. Tangerine arrivals have been on the increase, and they are selling well, particularly for decorative purposes. The price ranges from \$1.50 to \$1.75 per half orange box in which they are packed.

Liberal receipts of fresh eggs from local ranches caused the market to decline to 37 cents on case counts, and 41 cents on candled stock. At these figures there was a heavy demand, and all eggs obtainable went quickly from jobber to eater. The local price is still 1/2 cent lower than the posted quotation from San Francisco, where candled eggs are bringing 41/2 cents. Storage and eastern egg prices are bringing unchanged; 77 cases were reported in by-rail.

The market on local butter was a trifle slow, but second-grade stock moved better than normal. Receipts of butter were 29,594 pounds, and the market was not very firm at prevailing quotations.

Teh cheese market showed firmness, there was an advance of 1 cent on most varieties. Eastern singles, twines and cheddars sold at 18 cents a pound; longhorns from 19 to 20 cents; dairies at 19; Oregon dairies from 18 to 18 1/2 cents; and cream brick was fixed at 20 cents a pound. Arrivals were 324 pounds. The market was bare of imported stock.

Potatoes were in liberal receipt. Buying was slow. Watsonville stock was held at from \$2 to \$2.10 a hundredweight; Oregon sold at \$2.10 to \$2.25. Arrivals of spuds were 4318 sacks.

Australian brown onions in large quantities sold at \$1.60. There was no change on the market. Arrivals were liberal, totaling 300 sacks. Bean receipts were 523 sacks. Lady Washington sold in a jobbing way at \$4.50, small whites at the same and pinks at \$3.65. Sweet potato receipts were 38 sacks. They were held firm at \$2.25 a hundredweight.

There were no reported receipts of apples. Small red apples, the snow apple and the winesaps particularly are being called for. Other varieties moved freely at quoted figures.

Several changes were noted in the vegetable market. Green beans were advanced to 9 and 10 cents a pound. Bell peppers to 9 and 10 cents, and okra to 10 cents a pound. The market on vegetables was reported firm under liberal arrivals.

—A. C. TIEDE, Secretary.
